News from the Horse World.

James Boden, the young trainer and owner of sack Batchelor, who won on Friday last, landed \$6,500 by the victory.

Bancos, March 20.—E. A. Buck of this city is the owner of a finely bred son of Algantara that is attracting much attention from Lastern turfmen. Black Hawk Wilkes, as the horse is called, is a beautiful black, without a point of any other color, and stands sixteen hands high. He was foaled in 1886 at Highlawn stock farm and bred by the late Hon. Bilish Smith, owner of Aleantara as a four-year-old, as well as of Alevone, sire of Aleryon and other good ones. The dam of Black Hawk Wilkes, Alamoss, was by Alamo. 2:84%, one of the best of Almont's set her dam. Dame Duncan, a daugher of Maspurino Chief. Black Hawk Wilkes has never been trained, but is now being put into condition, and will be given a record this season.

PRIMARRIPHIA March St.—Pigeon Syers throughout the country have a feeling that Pennsylvania lawmakers have combined to spell their sport and dismantle their of m. First, live pigeon shooting was pronounced law-ful sport. Then preparations were being made to meet the emergency by establishing purchasing agencies at which a better price would be said for homing pigeons which a better price would be paid for homins pigeons than weals be given by the purvayors for gan clabs, when the ward came from Barrisburg of a bill which made it a misdemeaner to trap, kill, or hold a homing pigeon bearing identifying marks. This measure is meant in all kindness, but so long as the demand exists for common pigeons for shooting matches, and, as the same ward without difficulty from the homer, thus reduced the same ward without difficulty from the homer, thus reduced the same pigeon, no trapper or dealer will risk the loss of the price therefor, and take the chance of prosecution from conseitantions scrupias. New Jersey has a law similar to that and, as only those are affected by it who went expects about for returning or reporting a bird, none of the very many homers that are missing are ever heard from in that State the loss of his bird Biegy, will knew to all about the Fenneylyanic Railroad offices for its speed and endurates, and as a survision assembly a senior from a lot eaged for a hoesing from a lot eaged for a hoesing from a lot eaged for a hoesing for the senior from a lot eaged for a hoesing from the lot eaged for a hoesing from a lot eaged for a hoesing from the lot eaged for a hoesing from Superbarger of Chastmut Hill reports the death two record birds. STAND FROM UNDER, MR. MUGHES,

C. C. Rughes's interview in yesterday's pacircles, and the sentiments of Mr. Hughes's utterances were generally condemned.

A. G. Mills, the great reorganizer, was highly indignant at the insinuations and charges contained in the remarks of the "Cherry Diamond" Secretary, and, when asked for his views, said:

I must say that I am very sorry to see such that it could emanate from a responsible offi-cer of so conspicuous a club as the Manhattan Athletic Club. That it does not represent the sentiment of the membership of that club I fully believe, and that the use made of Mr. Carr's name in the article must be most die was dictated by personal hostility to Mr. Carr or unfriendliness to his club I be-

found anywhere outside the ranks of its personal membership. Indeed, to my knowledge be had been charged with partisanship because of the continued and flattering eomments which he has published concerning the splendid enterprise of that club. I am sure that none will be more ready than the members of that club is my the states, upon him. Indeed, it is only recently that hir. Storm, one of the statesmen and mainstays of the M. A. C., announced Mr. Sullivan's presence in its club house amid the general applause of its members. In my opinion the A. A. U. has honored the Metropolitan Association by selecting him as one of its representatives; and so far as the smaller clubs are concerned. no more earnest champions of their rights and interests could be found than Mr. Sullivan and his societages.

"What the opinion of members of my own club is touching the various candidates at the recent election. I do not know, but so far as I am concerned I will frankly say that from a club standpoint it will be a great disappointment to me if Mr. Curtis retains the different offices which his colleagues have imposed upon him, as their retention must seriously unon him as an officer of the N. Y. A. C.

"There is much work to be done for the cause of sthletics, and that work should be so distributed that every qualified man should bear a fair share of the burdens. I am in some measure responsible for the very heavy load that has been put upon Mr. Carr, and I shall be very glad (as I have offered to do) to aid him in any way I can; but there is one duty which, in my opinion, the members of his club and of mine, and all others interested in the promotion of pure amateur athletics, owe flow harmony and hearty cooperation for some fancied club advantage or to gratify some private grades.

"The Hall van was the principal target of Hughes's shafts. When asked if he desired to make a reply, he smiled in his dreamy, Bergen Point way, and remarked."

"The thing simply amuses me. I have nothing to say."

that he seriously contemplated lengthening the Volunteer to ninety feet and altering her into a schooner. Letimates have been asked for and Mr. Burgees is thought to be at work on plans for the alterations.

A GOOD "TRY" BY A NEW CLUB.

New York's Engly Union Football Team Befoate Paterson, Notwithstanding the steady downpour of rain yesterday, the newly formed Bugby Union Football Club of New York made a journey to Paterson to try conclusions with the home club. Quite a large crowd of enthusiasts assembled on the Clympic ground to witness the game, a large contingent being from New York.

The ball was kicked off by Paterson, being at once returned by Kell, when it was gradual-ly worked by the New Yorks forward into Paterson territory by a series of short runs by Berymgeour and Metoalfs. Kell dropped a from the forty-yard flag. On the kick-off some sharp sorimmaging followed, when Keil found the ball several times, and, by expert dodging, brought it dangerously near Paterson's goal

On Saturday, March 28, the New York team risits Philadelphia to play the club lately ormed in that city.
